Directors' Review

The Directors present their performance report of Pakistan Tobacco Company Limited (PTC) for the half year ended June 30, 2017.

The Company continued to be severely impacted by the massive consumer down trading to cheap duty evaded cigarettes. This is reflected in the business results of the 1st half ended in comparison to the same period last year (SPLY). Despite a series of efforts by the law enforcement agencies to curb illicit trade of cigarettes throughout the 1st half of the year, the illicit sector maintained its market share at 40.8% at June 30th 2017. In the face of these challenges PTC continued its strategy of driving manufacturing excellence, effective cost management and addressing the affordability needs of its consumers to retain market leadership in the legitimate sector.

Key financial indicators of PTC for YTD H1 2017 are:

	Rs (million)		
	Jan - Jun, 2017	Jan - Jun, 2016	
Gross Turnover	50,475	82,209	
Net Turnover	18,214	28,848	
Cost of Sales	9,882	14,150	
Gross Profit	8,333	14,698	
Operating Profit	4,774	10,403	
Profit Before Tax – PBT	4,809	10,653	
Profit After Tax – PAT	2,976	7,071	
Earnings Per Share – EPS (Rs)	11.65	27.68	

The Gross Turnover has declined vs. SPLY owing to the decline in sales volume primarily driven by the rise in market share of the illicit sector especially in the VFM segment. This decline was slightly netted off by the positive impact of excise led price increases taken during last year.

Cost of sales was lower by 30% primarily due to lower volumes vs SPLY. PTC remains focused on maintaining a sustainable business model built on high productivity and effective cost management.

PTC contributed PKR 34.3 Bn in H1'17 (down by PKR 23 Bn vs. SPLY) to the National Exchequer in the form of excise duty, sales tax, customs duties and income tax. The Company continues to stress the detrimental impact of growing sales of duty-evaded cigarettes on the sustainability of government revenues. In recognition of these negative factors, the government has initiated tax and policy reforms through the recent federal budget. The relevant authorities are urged to continue with the reforms and enforcement to create a level playing field to curb the growth of the duty-evaded segments of the industry and for the sustainability of government revenue.

PTC revisited its portfolio pricing in June'17 in line with the fiscal measures introduced by the government in the federal budget. We expect that the law enforcement efforts by relevant authorities coupled with the excise reforms will bring about sustainable growth in Government revenues and will support the legitimate tobacco industry going forward.

PTC remains committed to deliver shareholder value through a strong brand portfolio and through the high quality of its personnel and management policies.

Notes to the Consolidated Condensed Interim Financial Information (Unaudited)

for the half year ended June 30, 2017

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty including measurement of fair values were the same as those that applied to the separate financial statements as at and for the year ended December 31, 2016.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

5. Significant accounting policies

The accounting policies and the methods of computation adopted in the preparation of this condensed interim financial information are the same as those applied in the preparation of the financial statements for the year ended December 31, 2016.

6. Standards issued but not effective

A number of new standards and amendments to standards are effective for annual periods beginning after January 01, 2017 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing this condensed interim financial information. Amendments and interpretations to published accounting standards effective for the financial year ending December 31, 2017 are not expected to have material impact on the Company's condensed interim financial information.

The Companies Act, 2017 applicable for financial year closing after June 30, 2017 requires certain additional disclosures in the financial statements. These requirements are applicable to the Group's complete set of financial statements for the year ending December 31, 2017.
